Happenings in and Around Frank

JAMES GRAHAM, of Edmonton, was at the Sanatorium on Monday.

CORPORAL BOWERS, who was a witness at the Massey trial at Moose Jaw, returned to Frank last week end.

O. E. S. Whitehead, general manager of the International Coal & Coke Co., was down from Coleraine on Monday.

MR. COLEMAN, president of the Canadian Coal Consolidated, Ltd., will leave for his home in France on Sunday morning next.

Ice cream and refreshments will be served on the veranda or the inside of the Rocky Mountain Sanatorium every Wednesday and Sunday all day.

We regret to learn that W. Simpson is confined to the house with an attack of sciatica. His many friends hope to see him around again soon.

Mrs. Wilcox will shortly leave to join her husband at Passburg where they will in future reside. Many will regret to see her leave Frank where she has been so prominent in church work.

The Ladies' Aid of the Methodist church gave a successful concert and social in the Miners' hall on Monday evening last. The large number present thoroughly enjoyed themselves. The success of the affair is largely due to Mrs. Wilcox.

A night school is being held in the Methodist church every Tuesday and Thursday night. Mr. K. Kington and Miss Poll are the teachers. Those whose early education has been neglected should take advantage of this opportunity to improve themselves.

Work on laying pipes from the sulphur springs to the Rocky Mountain sanatorium commenced on Tuesday. Now that the frost is practically out of the ground, work on the laying of those pipes will be rushed with all possible speed so as to have the sulphur water running to the sanatorium by the 10th or 12th of April.

The Rocky Mountain sanatorium, recently erected at the famous sulphur springs here, by the Canadian Coal Consolidated, was officially opened on Thursday evening last. An elaborate banquet was given to which about fifty persons sat down. This large and splendid building has been erected at a cost of nearly \$100,000. It is furnished throughout in the most magnificent style and is one of the best sanatoriums in Canada.

A couple who have been married for forty years, and who never had a "cross word" between them, were discovered in New York recently. The truth of this statement is confirmed by neighbors who have known them for many years.

J. WHEELOR

Sanatorium Is Great Attraction

The Lethbridge Board of Trade has decided to petition the Canadian Pacific Railway to put on excursion rates for every week end between that city and Frank. They will ask for rates similar to those enjoyed by Calgary people going to Banff.

The Rocky Mountain Sanatorium has already received attention from important circles, and with cheap rates on between Lethbridge and The Pass (which we feel sure the C. P. R. will grant) large numbers will visit this institute and will enjoy the week ends in one of the most beautiful spots in Alberta.

Successful Concert

A concert was given in the Miners' Hall at Frank Monday evening under the auspices of the Ladies' Aid Society of Knox Methodist church. A good-sized audience listened to a programme which was equal to anything ever heard in Frank.

Mr. K. Kington was the chairman, and interspersed occasions reminiscence between the various items.

A piano duet was given by the Misses L. Thomas and L. Blais.

Solo were well rendered by Madames E. G. Clark, J. S. Murray, Miss Charron, Messrs. McKeen, Eaton and C. Edgley.

Recitations were given by Misses M. and H. Hart.

An instrumental solo excellent-

completed the programme.

The concert proceeds amounted to \$26.35, which reverts to the Society funds.

Great credit is due to Madames C. Williams and J. Wilcox, for the success of this entertainment.

Coleman Notes

The miners returned to work at the I. C. & C. Co.'s mines here on Friday morning last.

Our football players are all on the game and promise to continue their good work during the season.

The masquerade ball, given in the opera house on Friday night was largely attended and was a grand success.

We understand that the miners at the Big Creek Coal & Coke Co.'s mines here will continue work and that things around Coleman will not be so bad during the strike as many think for.

Coleman Back to Work

The miners returned to work at Coleman as the result of a conference held there the day previous between J. R. Palmer, of Lethbridge, solicitor for the Miners' Union, and Colin McLeod, of MacLeod, solicitor for the International Coal & Coke Company. It was agreed that the dispute was over a claim of about \$900 which the company had against the miners' union for water and light supplied the miners' hospital and for which the union refused to pay.

A young French engineer has invented a new form of roller skates which, he states, it is possible to travel at thirty miles an hour. The skates resemble miniature bicycles, and are fitted with thick pneumatic tires, and as the foot is raised a spring in the skates revolves the rear wheel, and causes the skater to travel at an extraordinary speed.

Happenings in and Around Bellevue

J. M. Carter paid a business visit to Lundbreck on Monday.

Mrs. Brownrigg, of Homer, is visiting with Mr. and Mrs. Hallsworth.

Mrs. P. Hart is improving from her rheumatic attack, and hopes soon to be about again.

Mrs. J. J. Walter is visiting relatives at Toronto, and will be absent from Bellevue for some time.

The union miners will go out on Saturday, and will stay out till an agreement is arranged with the operators.

Mr. Hudson, principal of the Frank public school, spent Saturday and Sunday with friends in Bellevue.

George H. Walter, brother of J. J., left during the week for Spokane, where he will look after some mining interests. Mr. Walter expects to be away for some time.

Chamberlain's Stomach and Liver Tablets are invariably bring relief to those suffering from chronic constipation, heartburn, biliousness, distension, sallowess of the skin and dyspepsia. Sold by dealers everywhere.

The first meeting for the year of the Bellevue Football Association was held last week. From the present outlook, Bellevue has every chance of making good on league work.

Chamberlain's Stomach and Liver Tablets are safe, sure and reliable. They have been praised by thousands of users who have been restored to health through their great side and nutritive properties. Sold by dealers everywhere.

Our gent's furnisher, J. J. Walter, has recently enlarged his store, and today this store is one of the best fitted and best stocked furnishing establishments in the Pass. Mr. Walter expects to handle a thriving trade in the near future.

REV. T. D. Jones preached a very interesting and impressive sermon at the Methodist church on Sunday night last, in which the Rev. gentleman strongly impressed upon his hearers the great importance of honesty, truthfulness and morality.

In spite of the depression caused through the continued inactivity of the mine, the services here of the Methodist church are well attended. The singing is a special feature of these services. Last Sunday week, the Hillcrest quartette party delivered two invigorating pieces.

The Only Way

The number of deaths resulting from tuberculosis, typhoid fever, scarlet fever and many other diseases are carefully recorded and tabulated by the authorities. But of the number of deaths directly traceable to worry or anxiety for the wage-earner or man of small means, it is difficult to say exactly for how long a time his earnings are but little more than sufficient to provide the daily necessities. To such a one the Canadian Government Annuities scheme is indeed a blessing. In no other way can he get such wonderfully good returns for "little more" than he may have to invest, for it will when his annuity begins enable him to spend the principal as well as the interest thereon without his income becoming smaller no matter how long he may live.

Another Modern Miracle Locomotor Ataxia Cured

The Sufferer Had Been Given Up as Incurable by Several Doctors—Hospital Treatment Also Failed—Dr. Williams' Pink Pills Worked the Miracle.

Before the discovery of Dr. Williams' Pink Pills, locomotor ataxia was considered an incurable disease. It has been fully demonstrated, however, that this disease can be cured through the use of these pills, where the treatment is personal, in, and around the home.

Locomotor ataxia is a disease in which the eyes are closed or in the dark. It is the result of a paralytic affection of the brain, and it is manifested in an inability to stand erect when the arms are raised, and in deranging the motions of the legs. One of the commonest and earliest signs is a tired feeling, particularly noted in the knees and ankles. This sensation is frequently associated with it, and these two symptoms are always present in the early stages. As the disease progresses, there is an increase in the duration of the attacks, and they become more frequent, extending from the feet to the head, and finally to the entire body.

A few days afterward, when her mother was again writing to Dr. Williams, she said: "For several months now I have been suffering from the disease, and I am getting worse, till finally he lost all control of his limbs, and could not move at all. I had to carry him from his bed to a chair, where I would have to tie him down, and then I had to tie him down to the bed, so as to prevent his kidneys and bowels, and we daily looked for death to relieve him of his suffering. In 1905 we sent him to Brandon Hospital, hoping that the change of air would do him good, but it did not. He became more and more paralyzed, and the hospital doctor advised me to take him home, as they said he could do nothing for him. At this time a friend advised the use of Dr. Williams' Pink Pills, and my son was given a bottle. After taking them for about three months I noted a slight improvement in his condition. In six months he could walk once more and from then on the disease continued to get better, until now he is once more able to attend school and do the chores about the house. What Dr. Williams' Pink Pills have done for him is truly wonderful, and I strongly recommend them to all sufferers, who most certainly saved my boy's life."

In a communication of what Mrs. Ruller says, Mr. A. E. Steele, the well-known lumber and coal dealer of Antler, writes: "With reference to what Mrs. Ruller says concerning her son's cure by Pink Pills, I have no hesitation in saying that it is a fact. I have known Dr. Williams personally for many years, and am personally acquainted with the case."

This great cure is not the only one performed by Dr. Williams' Pink Pills. There are many others, both to health and strength, after some of the best doctors in the country have been forced to give up the case as incurable. Not only in cases of locomotor ataxia, but in cases of paralysis, sciatica, and other diseases, and other operations, the results of treatment have been successful. The whole secret of their wonderful success is in their power to restore rich, red, healthy-looking blood to the system. The pills are sold in all medicine counters, druggists, or dispensed by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Going to Look At It— "Going to the auto show."

"Sure thing, I want to see the thing for which I'm going to mortgage my house when I get it paid for."

Shiloh's Cure

quickly stops coughs, cures colds, heals

the throat and lungs. . . . 25 cents

The number of unmarried women in England and Wales exceeds the number of unmarried men by an majority of nearly 900,000.

Occasionally a man has wife-relations—if he has visits his wife-relations—if he has nowhere else to go.

No child should be allowed to suffer because of poverty. If a child can't be got in a simple but strong remedy Mother Graves' Water Externalizer.

"How far has your honeymoon got?" Oh, to about the last quarter."

Minard's Liniment—Cures Dandruff

A man usually leaves the band on two for five cigar so that people will imagine it is a ten-center.

What He Was Worth

Robert Burns was once standing on a long pier on the water front of Edinburgh. A workman and a woman had fallen into the water. He could not swim, so he sank. But he swam for them, though nobody else would. But Burns, who was standing by, was a fisherman, and he knew that if a gentleman knows what his life is worth,

Prodigies Poetry

The prodigious daughter of an artist attended first a French wedding, and so filled with inspiration was she that immediately began to write a poem.

A few days afterward, when her mother was again writing to Dr. Williams, she said: "I am sending you a copy of my poem, which I wrote at the wedding, and I hope you will like it."

Stansay by stanza the poem reads:

"I am a prodigy, a poet, a girl,

"Born to sing, born to write,

"Born to be a prodigy, a girl,

"Born to be a poet, a girl,

"Born to be a prodigy, a girl,

"Born to be a poet, a girl,

"Born to be a prodigy, a girl,

"Born to be a poet, a girl,

earlier unpleasant result for
the thief.

Charlie O'Brien, M. P. P., was in mood to his friends before leaving for the East. Since our brilliant Socialist friend was here, the question has been asked, that if it takes fifty years for light to travel from the stars, in the heavens, to the earth (and the last time that we raced with one of those luminous bodies it was travelling over a million miles a minute) how long would it take the brilliancy of Charlie's countenance to illuminate the dark understandings of his few remaining political friends.

The Harlem skirt was first introduced in Blairmore on Thursday evening last. As we were wondering how much Straits Settlements money would be required to fight a law suit, a gentle knock was heard on our sanctum door. Hoping it was a delinquent subscriber, we safely hid the few stray coins of that much-coveted money, and after dusting a seat we opened the door to greet our amiable friend. But imagine how sorely disappointed we were to find that it was not a debtor, but two ladies who came just to introduce the Harlem skirt.

H. E. LYON,
Proprietor.

NOTICE

Notice is hereby given that in accordance
with the provisions of the Coal and
Hillcrest Collieries Limited, have filed the
Bill of Sale of the Hillcrest Collieries
Sections 14 and 15 of the said Act, with the
Minerals Commissioner, for the sum of
\$100,000.00, for the purpose of selling
the same to the Company, for other purposes and for
the better management of the Hillcrest Collieries.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

The unclaimed lands are also offered
for sale to the highest bidder, the said
land being the north-west quarter of Section 14
and the north-east quarter of Section 15, both
sections being bounded by the Hillcrest
Colliery property and the Hillcrest
Colliery property.

Home Course In Health Culture

XVI.—Emergencies In the Home

By EUGENE L. FISH, M. D.
Copyright, 1918, by American Press Association

NO OUTWITHSTANDING sign has been written and uttered regarding "man's inhumanity to man," the first impulse of the average human being when seeing in distress. This is well explained by the agility with which half a dozen people unkind will chase a hat that has been left off.

When accident or disease occurs in the household, however, successful assistance can be given, as in the case of the wind blown hat. The most willing hands and heads may bring injury rather than relief if they are not skillful and ignorant of how to direct it.

Fainting Spells. Ordinary fainting spells, occurring cases of unconsciousness, due to heart disease, kidney trouble, apoplexy, etc., may be due to a number of causes—shock, over-excitation, eye strain, lack of food, bowel trouble, etc., and in such cases the patient should be placed in a reclining position with the feet higher than the head and the head supported about the neck and chest. Cold water dashed in the face will usually suffice to overcome the convulsions. Administration of ammonia inhalations. If the patient is able to swallow fifteen to thirty drops in a wineglass of water a good result will be obtained. Alcohol should be applied to the nose of an unconscious person, as extreme irritation of the mucous membrane may be necessary for the patient becomes conscious of it.

An impending faint may be prevented by having the patient lie down in his bed while sitting down. This stimulus

which may be most rapidly accomplished by an enema. A physician should be called at once.

Surgical Troubles.

In this condition there is laceration of ligaments, blood vessels and other structures surrounding a joint, and the part is usually held in the injured part in hot water and apply hot cloths for half an hour. The fingers should be strapped not too tightly, and kept warm until the acute swelling and tenderness subside. Alternate application of hot and cold water poultices on the affected pitcher is often beneficial. It is a mistake to attempt continuous self massage of a sprained joint, as such a course of action may result from neglect to secure early surgical aid. The X ray has demonstrated that many sprained ankles are often complicated by fractures.

Fractures.

When a limb is fractured the first step is to apply a temporary splint to prevent needless injury to soft parts by the ends of the fractured bones. Any stiff material, an umbrella, chair back, etc., will do. It should be bound to the limb by handkerchiefs, towels or bandages until surgical aid has been procured. In fracturing the limb, the patient should be told to hold it straight to the outer side. If the skin has been broken the fracture is termed compound, and extreme care is necessary to prevent further laceration or infection of the tissues.

Wounds.

Slight punctured or lacerated wounds often begin to hemorrhage or impinge upon the bone. In the event of a fracture of the bone, the patient should be applied to the limb by handkerchiefs, towels or bandages until surgical aid has been procured. In fracturing the limb, the patient should be told to hold it straight to the outer side. If the skin has been broken the fracture is termed compound, and extreme care is necessary to prevent further laceration or infection of the tissues.

Scars.

Carbolic acid should be banished from the household, except in the form of carbolic water.

The preparation is applied to cuts, sores, in emusions. Solutions of carbolic acid constantly applied to the extremities, eyes, nose, etc., have been known to cause gangrene.

Very useful purpose served by carbolic acid as a household remedy can be seen in the treatment of insecticides, such as a saturated solution of borax or the official liquor aniseptics of the United States Pharmacopeia.

Diluted carbolic water may be used, this latter preparation may be used whenever a cleansing antiseptic is required.

Burns.

Probably nothing causes more excitement in the household than burns or scalds, and it is especially true that a scald is no sooner produced and promptly applied.

The most convenient and perhaps the best remedy to apply is ordinary baking soda. This may be applied in powder and the parts wrapped in clean cotton, and the dressing should then covered with cotton, or the bandages may be saturated and kept moist with a strong solution of soda. Linseed oil should be applied with a needle that has been sterilized in boiling water, but the skin should not be broken.

Burns.

When a burn is very extensive immediate proper dressing is difficult, and it is extremely important to keep the skin from becoming raw by air. This may be quickly done by placing the patient in a warm bath, and holding the limb between 34 and 40 degrees F. Such treatment is often continued for a long time, depending on the water, of course, and the patient should be covered with a sheet, and the limb should be sterilized in boiling water, but the skin should not be broken.

When a burn is very extensive immediate proper dressing is difficult, and it is extremely important to keep the skin from becoming raw by air. This may be quickly done by placing the patient in a warm bath, and holding the limb between 34 and 40 degrees F. Such treatment is often continued for a long time, depending on the water, of course, and the patient should be covered with a sheet, and the limb should be sterilized in boiling water, but the skin should not be broken.

Ear Emergencies.

Acute inflammation of wax or foreign bodies in the ear canal may be treated by syringing with warm water or saturated solution of borax acid. Insects may be suffocated with a few drops of pure turpentine, and the ear cleaned with warm water. It is a bad practice to oil in the ear for the ear canal is a narrow tube, and when warm water does not suffice a probe and a needle that has been sterilized in boiling water, but the skin should not be broken.

The "Heavy" Duchess.

The Duchess of Connaught, who is coming to Canada, is one of the most traveled members of the royal family, and has indeed, roughed it bravely through the desert wastes of Egypt. An amusing story is told. When out in Egypt with the duchess she had to travel in a sedan chair, and was seated in an improvised sedan chair, with mukkets for the framework and Egyptian soldiers for the bearers. "The boys will not be tired," said the Duchess, pleasantly, to the native bearers, who were evidently used to carrying the duchess in her sedan chair.

Earache is usually due to inflammation of the membranes around the ear, and is often caused by a few drops of warm water or saturated solution of borax acid.

Earache may be relieved by applying heat to the ear, and the patient's head, loosely elevated by anxious friends, and the application of a cold compress applied. Although this condition is due to heat, cold will only aggravate it.

Cervicalgia.

In true cervicalgia the patient should be made as comfortable as possible during the attack and prevented from further strain.

Convulsions in children may be due to comparatively trivial causes—teething, indigestion, worms, etc. Some times convulsions are the symptom of a serious acute disease, as infection, fever, pneumonia, etc.

The child should be put in a hot bath, and the temperature of 98° for about five minutes. This will usually control the spasm, and the patient can be put to bed and other necessary measures taken, especially cleansing out the bow-

CENSURING THE SAVAGE.

Counting the Counting Man In Disgrace.

Fred, in the twentieth century, had enlightened the world, and the savages men will no doubt have some funny stories to tell of ignorance and pre-eminence. But their experiences will compare with those of the official in the more distant lands of the Empire.

In remote parts of India, particularly, there have been some farcical attempts which, but for the good sense of the savages, would have ended in anything but a happy way.

At one of the earliest censuses, the counting man was sent in proceeding about a month before the final examination, a number of returns were sent in, and the counting and mysterious objection to the census and eventually, without any trial, the savages were sent into the jungle.

But the counter was a hard-headed Englishman, and he had cut the headman, and asked him what all the fuss was about. The reply, he was told, was that the savages were afraid that the counting was but a preliminary branding of every man in the community, and that the men might be sent to be carriers in the army, and women deported to pick tea in Assam.

The official listened attentively until the savages had finished, and said that that was not the idea at all. What he was really doing was finding out the number of savages in the next famine, and that for those who were not counted no rice would be given.

Every member of that tribe came back with a report.

In another district, but many miles away, the same rumor obtained credence.

The census man here was an Irishman, and he had an Irish way of doing things. He had a bottle of whisky, and led them on by easy conversation, and when the savages had counted, he was still with them, and was offered a glass of whisky, and was told that they could not have any more.

He was told that they had been frequently wounded by pygmies with spears, and that they had been exterminated in the war—a curious conclusion as to name and spelling.

The savages are still wild, but are in their original state. There is a band of fur around the edge, and there is a warm lamb's wool interlining. So far, the savages' garments are finished just below the waist with weighted silk tassels that keep the ends down.

And he won his point.

Many and varied have been the experiments individual savages have made in counting.

One old lady of that tribe, who was weak for years, of about eighty years previously, refused on the ground that her height was too great, and held together the tall, thin, gaunt girls of the tribe, who had been exterminated in the war—a curious conclusion as to name and spelling.

Strange Uses for Mirrors.

The celebrated Beau Brummel during the first years of his exile, while yet his fame as a dandy was not yet pronounced, was a frequent visitor to the court of King George IV, and the Duchess of Cleveland had such another constructed to gratify her taste. It was this ceiling panel that a certain Yorkshire gentleman of the last century had his ceiling panelled with a picture of a glass ceiling, and the Duchess of Cleveland had such a ceiling panelled with a picture of a glass ceiling.

It was the fashion in those days to sport of cock-fighting, he continued to the last to enjoy his favorite pastime, and when he died, his favorite room was the scene of many an exciting fight, which, lying on his glass overhead, he witnessed.

He was buried in a sarcophagus.

The "fancy" Duchess.

The Duchess of Connaught, who is coming to Canada, is one of the most traveled members of the royal family, and has indeed, roughed it bravely through the desert wastes of Egypt. An amusing story is told. When out in Egypt with the duchess she had to travel in a sedan chair, and was seated in an improvised sedan chair, with mukkets for the framework and Egyptian soldiers for the bearers. "The boys will not be tired," said the Duchess, pleasantly, to the native bearers, who were evidently used to carrying the duchess in her sedan chair.

Earache is usually due to inflammation of the membranes around the ear, and is often caused by a few drops of warm water or saturated solution of borax acid.

Earache may be relieved by applying heat to the ear, and the patient's head, loosely elevated by anxious friends, and the application of a cold compress applied. Although this condition is due to heat, cold will only aggravate it.

The symptoms of sunstroke are very high temperature, ranging from 104 to 112 degrees F. Headache, dizziness, heavy breathing and unconsciousness. This condition may be mistaken for apoplexy if the temperature is high.

The remedy is, in a word, cold. If it is not possible to get a full ice cold bath, a wet cloth should be applied to the head, neck and chest, and the tremors relieved by cold water. The application of cold could not be continued until the tremors had dried to normal and remained if these.

The symptoms of heat exhaustion are the reverse of those of sunstroke. The patient is pale and weak, and the pulse is slow, feeble and irregular. The mouth is dry, the skin is hot and clammy, and the patient is delirious. The tongue is dry and the lips parched.

The treatment must be directed against these conditions. The application of heat to the body and cooling the head by means of a wet cloth, towels, etc., will be effective. Hot water bags, bottles, etc. Epsom salts, or other similar substances, may be applied. Alcohol should not be applied, although this condition is due to heat, cold will only aggravate it.

STRIKE IS IMMINENT

Agreement Expires on March 31st

—Miners and Operators
Cannot Agree

7,000 MINERS WILL BE IDLE

Daily Payroll Is Over \$20,000-A

List of the Mines
Affected

After lengthy deliberations by both the mine operators and district 18 of United Mine Workers of America, without coming to any satisfactory settlement, about 7,000 miners engaged in the said district will throw down their picks and shovels at the close of this month and go on strike.

The two-year agreement between the Western Coal Operators Association and District 18, of U. M. W. of A., expired at 12 p.m. on the last of this month and although great efforts have been made by both parties to have another agreement drawn up by the time the old one expires, they have not been successful and their last conference was abruptly closed at 4:15 p.m. on Friday last.

Just how long this strike will last, is hard to say. The operators seem determined to make no further concessions to the men, while the latter declare that they will remain on strike until the present stock of coal is exhausted and they hope to be then able to force the operators to open their mines. However, some of the miners have ventured to say that the mines will not be closed more than three or four weeks.

The daily output of coal in the district is 12,000 tons; number of mines, 16; the daily payroll which the 7,000 miners and this district will lose will be over \$20,000.

The following is a list of companies affected by the strike:

Crow's Nest Pass Coal Company, Coal Creek and Michel-Hosmer Mines, Ltd.; Hosmer, Corbin Coal Company, Corbin.

International Coal & Coke Company, Ltd., Coleman.

West Canadian Collieries Ltd., Blairmore, Lillooet and Bellota.

Canadian Coal Consolidated Ltd., Frank.

Hillcrest Coal & Coke Company, Hillcrest.

Maple Leaf Company, Maple Leaf.

The Davenport Coal Company, Burnside.

The Leitch Collieries, Passburg.

The Bankhead Mines, Bankhead.

H. W. McNeil Company, Cummore.

The Royal Collieries, Diamond Coal Company, Alberta

Railway & Irrigation Company, and the Chinook Company,

Lethbridge.

Must Serve Eight Years

J. M. Massey, who arrived at Frank on January 10th and who soon after started a dry goods business in the Goyette building, was last week sentenced to eight years imprisonment at Moose Jaw for obtaining goods under false pretences and also for forgery.

Spur Line to Brick Works

The Blairmore Brick Works are about to have a spur line built from the railway track at the mines to the brick kilns. Men will be put to work at this immediately so that it will be completed early in April. This spur line will be quarter of a mile in length and will be a splendid convenience as well as a great saving to the brick company in shipping their product.

Happenings in and Around Blairmore

The trains have all been making pretty good time lately and the C. P. R. is giving us excellent service these days.

A meeting of the Ladies Aid of the Presbyterian church will be held at the home of Mrs. C. E. Chestnut on Thursday afternoon next.

Rev. Mr. Todd, M. A., R. D. arrived in town on Tuesday evening to assume the pastorate of the First Presbyterian church here.

Mr. and Mrs. Duncan Brain left on Tuesday morning for Spokane and Seattle, the "flyer" stopping at Blairmore for them.

J. E. Boyle, the license holder of the Cosmopolitan hotel, appeared in court on Friday morning last, charged with having the bar room windows obstructed during prohibitory hours. The case was adjourned until Friday last.

Rev. J. F. Hunter received a nicely decorated post card through the mail this week, on which was printed: "If Preachers knew more about this life, they would revise their sermons on the next." Mr. Hunter has therefore decided to use as his subject on Sunday evening next: "Some Things Preachers Know."

The Ladies Aid of the Presbyterian church gave a tea aid bazaar in the Mercantile Hall on Wednesday (yesterday) evening. Fancy prices were realized for some of the articles and the affair was a splendid success. The proceeds have been placed to the building fund of the new church which will be erected on Mountain View.

The number of ladies that have visited the millinery parlor of Mrs. Clifford since her opening last week, is perhaps larger than any that have ever been known in the town since the wearing of the "Merry Widow" hat. Mrs. Clifford has many of the latest Parisian, London and New York styles and her stock of ladies' head covers is large and good.

Rev. A. J. Langlois is disposing of his household furniture preparatory to his leaving to assume the pastorate of a large church at Montreal. Many say that Mr. Langlois' efforts in building up a good church during his short stay in Blairmore, have been untiring and that they have been crowded with considerable success. Mr. Langlois has done more for the Presbyterian church in Blairmore during his six months stay here than all the other ministers of that church have done for six years.

INCREASED ACTIVITY

More Machinery Has Been In-
stalled—Work Will Be Re-
sumed Next Week

AT BLAIRMORE BRICK WORKS

Daily Output Now Over 40,000-
Will Be Increased—Demand Far
Greater Than Supply

Work at the Blairmore Brick Works will be resumed in the course of another week or so when that place will assume greater activity than ever.

This plant was closed down about three months ago just for the winter. During that time the plant has been thoroughly overhauled and more machinery has been installed. Two manimoth grinders, two Fraser & Chalmers rollers and two screens are amongst the latest addition which the Blairmore Brick Works have made to their plant.

On Tuesday we had the privilege of going through this large and splendidly equipped plant which is now in operation during our visit. W. G. Sherman, the secretary-treasurer of the company took us through the plant and showed us the mechanism and workings of the different machinery. The manager, F. Pendergrast, informed us that there would be considerably more brick manufactured this season than last.

A large continuous kiln will be commenced as soon as the frost is out of the ground. This kiln will have a capacity of over 40,000 brick a day. There are at present three other large kilns which have a daily capacity of 40,000 brick. With this extra one, the daily output will be greatly increased. Besides this, the brick which will be manufactured this year will be even better than that previously turned out by this plant.

The demand for this splendid product is increasing all the time. Orders for several million bricks have been received from Vancouver, and as soon as the C. P. R. builds the new spur to the plant, two or three million bricks will be loaded on the cars and shipped to the Pacific coast. Orders for Blairmore brick are being received at the office here, from all points, and large builders who have used it say that it is some of the best brick manufactured in Western Canada.

Here and There

It is estimated that the cost of the tobacco consumed in the world annually is in the region of one hundred and fifty million dollars.

Fifty 125 persons lost their lives in accidents which befell New England, Canadian and Newfoundland vessels, and other craft which met disaster in Western Atlantic waters during the fall and winter season now ending.

In a man-eating shark, recently captured in the Straits of Juan de Fuca, British Columbia, some fishermen found the remains of a man and a woman. It is presumed that the shark had devoured the bodies and was "snapping" each other, and that the shark, which was thirty-six feet long and weighed 15 tons, won.
